Education

Ph.D.	University of New South Wales , Sydney, Australia Computer Science Supervisor: Prof. Flora Salim, Dr. Hao Xue	2023 – 2027 (expected)
M.S.	Northeastern University , Boston, USA Data Analytics Engineering GPA: 3.917/4.0	2019 – 2021
B.Eng.	Southern Medical University , Guangzhou, China Biomedical Engineering Minor: Information Technology GPA: 3.09/4.0	2015 – 2019

Research Interests

- Multimodal learning, wearable sensor–language alignment, and LLMs for health and human activity recognition.
- Advancing verifiable and structured reasoning on wearable health data through domain knowledge integration and evidence retrieval with LLMs.

Experience

Google, Student Researcher

Mountain View, CA
Feb 2026 – Present

- Building foundation models for continuous glucose monitoring.
- Connecting sensor foundation models with language models.

University of New South Wales, Casual Academic & Research Associate

Sydney, Australia
Aug 2022 – Dec 2025

- Taught tutorials for multiple courses:
 - COMP6713 Natural Language Processing
 - COMP9444 Neural Networks and Deep Learning
 - COMP9517 Computer Vision
 - DATA9001 Fundamentals of Data Science
- Conduct research on leveraging LLMs for wearable sensor time-series, focusing on human activity recognition and reasoning over motion sensor data.
- Mentored undergraduate students, co-supervising "Taste of Research" projects with Prof. Flora Salim.

Singapore University of Technology and Design, Visiting Research Fellow

Singapore
Mar 2023 – Jun 2023

Supervisor: Prof. Wei LU

- Conducted research on integrating human mobility data and time-series signals with language models.

University of Copenhagen, Research Assistant (part-time)

Copenhagen, Denmark
May 2021 – May 2022

Supervisor: Prof. Anders Søgaard

- Developed QLEVR, a large-scale synthetic dataset (100k images, 1M questions) for visual reasoning with quantificational language.
- Designed scene graphs and 3D image generation pipeline using Blender to support complex linguistic and spatial reasoning tasks.

University of California, San Diego, Research Assistant (part-time)

San Diego, CA
May 2020 – May 2021

Supervisor: Prof. Pengtao Xie

- Proposed and evaluated a Self-Supervised Regularization (SSL-Reg) framework for text classification using a Y-structured joint model with shared parameters.
- Developed CovidDialog (English & Chinese), one of the first large-scale medical dialog datasets for COVID-19, and explored dialog generation with self-supervised regularization.
- Demonstrated that SSL-Reg alleviates overfitting and improves generalization, especially on low-resource tasks.

Honors & Awards

- UNSW Founders New Wave Cohort 15 Showcase — Faculty of Engineering Award 2025
- UNSW Higher Degree by Research (HDR) Scholarship 2023 – Present
- The Dean's Seattle Leaders & Scholars Award, Northeastern University 2019 & 2020

- Scholarship of Academic Excellence (Top 13%), Southern Medical University 2016 & 2018
- Excellent Student Leader (Top 30%), Southern Medical University 2016 & 2018
- 3rd Prize, South China Division, WeChat Mini Program Development Competition 2018
- Outstanding Student (Top 10%), Southern Medical University 2016

Skills

- **Languages:** Chinese (native); English (proficient)
- **Programming:** Python, PyTorch, Java, R, C/C++, JavaScript, SQL
